Students and the Future of Christian Missions

Report of the Tenth Quadrennial Convention of the S. V. M., Detroit, Michigan—$2.50

A Volume With More Than Passing Significance

The addresses at Detroit have proved themselves to be of permanent value. They were reports of fact and experience of men and women who know the present world situation as it affects Christian missions. They are packed full of very valuable information and interpretation from many different angles.

The questions discussed are the liyest questions of the day, and missions were considered in their present-day setting. Each chapter of the Report is followed by discussion which came out of group meetings of students. These questions may be used for other discussion groups.

The volume is arranged for easy reading and study. It is an orderly treatment of vital concerns. Each chapter is preceded by a synopsis which presents the problem discussed and outlines the discussion. These synopses also give short biographical statements concerning each speaker whose address is reported.

The Student Volunteer Movement Bulletin will help you keep pace with the rapid change in missions.

It helps one understand why Christian teaching has met with resistance, and what responsibility you have in this matter.

It brings the thoughtful opinions of Christian leaders at home and abroad.

It tells what preparation is needed to make you acceptable as a co-worker with people of other countries.

It tells where missionaries are needed in America and in other lands, and how the churches are meeting the need.

Published each month during the college year, $1.00.
